TRAINING TO OUTDO WESTON.

Five Boys Walk Ninety Miles in Twen ty-five Hours, Beating Stunt of a Year Ago.

Philadelphia, Pa.,-Five boys from the High School of Commerce of New York arrived here yesterday, having walked nivety miles in exactly twenty-five hours. Although they deny trying to beat the record of Edward P. Weston, the 60-year-old pedestrian who has just finished a trip from Portland, Me., to Chicago, it is evident that they were not averse to the reputation of being in the Weston class, having beaten their own record of last year by five hours.

The youthful plodders are Harry Tarrantous, Walter Goepel, Harry Rieper, Harry Stern and Willard Groff. They belong to a school organization called the Strollers' club. One of the qualifications for membership is that the applicant must have accomplished the feat of walking 100 miles or more in three treks.

I was going to give Jinks a little friendly advice this morning. And didn't you? No: he started to tell me how to run my affairs and that's something I tolerate from no man .-Louisville Courier-Journal,

To Mother Goose,

The skies are gray, The chill winds blow; Such signs would say That it should snow.

Old Mother Goose Up in the sky, Shakes feathers loose And lets them fly!

The flakes will fall, So soft and white, And children all Fill with delight.

Our sleds are new, Our spirits high: Old Mother do Make feathers fly!

From morn to night We'll sled and slide, A great snow fight We'll have beside!

Snow forts we'll build, And fine snowmer, The days are filled With joys then,

So, Mother Goose, 'Tis time to shake Your feathers loose For playtime's sake! -Louisville Post.

Pierce has shown that his formulas are of such excellence that he is not alread to subject them to the use of secret, medicinal compounds, Dr. R. V. Pierce, of Buffalo, N. Y., some time ago, decided to make a bold departure from the usual course pursued by the makers of put-up medicines for domestic use, and so has published broadtast and openly to the whole world, a full and complete list of all the ingredients antering in the composition of his widely celebrated hedicines. Thus he has taken his numerous vatrons and patients into his full confidence. Thus too he has removed his medicines from among secret nostrem of doubtful merits, and made them fremedies of Known Composition. By this bold step Dr. Pierce has shown that his formulas are of such excellence that he is not alread to subject them to the full secret.

WHAT DEPARTMENT HAS FOUND.

Washington, Dec. 20.—Is the country face to face once more with a car famine? Are the couditions that tied up the northwest last winter to rule again? This is a subject that is worrying the administration. Franklin K. Lane, a member of the interstate commerce commission, recently made a trip through the west and that they are not considered the containing address on postal card or by letter, to Dr. R. V. He returned with his apprehension somewhat allayed, but recent reports have served to renew his fears.

The report on the internal commerce of the country during October, just issued by the department of commerce and labor, throws a significant sidelight on the problem. The report says:
